Flexibility

Practical Folding Mechanism

The ergoflix® heavy can be folded in just a few simple steps. Thanks to its practical folding mechanism, your mobile companion can be folded away in seconds to save space and travel with you wherever you want to go – whether by car, bus or train.

- Operate the lever on the back of the wheelchair and gently push the backrest forward.
- Grip the footrest and pull it towards the backrest. Your wheelchair is now fully folded.

More Room for Comfortable Mobility

Designed for an Exceptionally Comfortable Seating Experience

Extra-wide seat with comfortable cushioning

■ for your optimum seating position

Raised seating position and extended backrest

■ ideal for taller users

Adjustable hook-and-loop straps on the seat and backrest

■ for personalised support

Flip-up armrests

■ for greater freedom of movement when getting in and out

Two storage pockets

■ for your personal belongings

Built for People Who Need More

So You Can Travel with Confidence

The ergoflix® heavy is your strong companion both at home and on the move. Count on a robust design with an exceptionally high load capacity of up to 230 kg.

**Aluminium frame with
reinforced construction**

■ Extra-high axle load capacity and reinforced pivot points

■ Double-suspension front fork for reduced vibration

■ Integrated anti-tip wheels for added safety

Intuitive Controls

For enjoyable driving from the very first moment

The clear and intuitive control module of the ergoflix® heavy is easy to use from the outset. Simply sit down, switch on and set off. The controls are intuitive and easy to master, providing a reassuring sense of safety and relaxed driving enjoyment from the very beginning.

The control module of the ergoflix® heavy was developed using insights gained from customer experience. The result combines modern technology with outstanding user-friendliness.

Additional features:

- LCD colour display
- Battery charge indicator
- USB port for charging your mobile phone
- Distance travelled display
- Various joystick attachments, including a tetra fork attachment and comfort knob, available in the accessories range

Good to know: The powerful horn helps make you more noticeable when out and about.

High-performance motors

Power that keeps you moving

The ergoflix® heavy is fitted with particularly powerful motors (2 x 350 watts), ensuring you have the power you need even under heavy use. You can rely on a quiet and pleasantly smooth ride.

Another advantage: the motor is brushless and therefore maintenance-free. It also boasts minimal wear, high efficiency and high RPM – a clear plus for long-term reliability.

Good to know: the ergoflix® heavy is easy to manoeuvre in push mode.

Powerful on the move, smooth to ride: for performance that keeps you moving forward.

Modern Lithium-Ion Batteries

For Maximum Range

The powerful lithium-ion batteries reliably supply the ergoflix® heavy with energy, giving you the freedom to travel whenever you want. A full charge provides a range of up to 38 km¹ without recharging.

Good to know: You can conveniently check the battery charge level directly on the control module.

Additional highlights:

Lithium-ion batteries...

- can be removed easily at the touch of a button whenever required.
- can be stored, charged and transported separately.

UP TO 38KM RANGE¹

¹Actual range may vary in practice depending on weight, driving style, speed, use of comfort and auxiliary functions, ambient temperature, payload and terrain.

Secure Your Health Insurance Funding

1 Doctor's Prescription

The first step towards receiving health insurance funding is an appointment with your doctor. If your doctor confirms the need for a mobility aid, they will issue a prescription.

The prescription should include the diagnosis, for example "immobility" or "gait disorder". As the ergoflix® heavy does not have a reimbursement code and is funded on an individual basis, the prescription should also state why this particular model is the only suitable option and is medically necessary for you. This may be the case, for example, if you have a higher body weight or other specific care requirements.

2 Contact ergoflix

Once you have received your prescription, please get in touch with us. Together, we will arrange a personal consultation and a test drive at a mobility retailer near you.

3 Submitting Your Documents

The mobility retailer submits all documents to your health insurance provider. Your provider will review the application and then contact you directly. Once approval has been granted, you will receive your ergoflix and can contact your mobility retailer directly with any questions regarding your wheelchair.

Note for Private Health Insurance Policyholders

The process for private health insurance differs from the statutory procedure. Here too, everything begins with a medical prescription and a consultation at a mobility retailer. You will then receive a quotation. Submit this quotation to your private health insurance provider. Once approval has been granted, you can order your ergoflix directly through your mobility retailer.

Do you have questions about your medical aid application, or would you like to appeal following a rejection? Send us an email at **krankenkasse@ergoflix.de** or simply call us on **+49 2852 9459094**.

We are happy to support you throughout the application process. Our experts are highly experienced in dealing with health insurance procedures.

Book Your Test Drive

Free of Charge and with No Obligation

Get to Know the ergoflix® heavy

At ergoflix, you can test drive your future companion free of charge. At a time that suits you, one of our certified medical device consultants will visit you at home, explain the wheelchair's features and answer all your questions. You can then try out the wheelchair for yourself in your own home.

Alternatively, you are welcome to arrange a consultation at a mobility retailer near you. We work with more than 700 partners throughout Germany.

Booking Your Test Drive

Together, we will find a suitable appointment.

To book your test drive, simply call us on
